

# Certificate of Approval

## Temporary Overlay Pitch (TOP) System

fih.ch/hockeyturf

This is to certify that the Temporary Overlay Pitch System (TOPS) known as:

*Poligras Tokyo GT BSH*

supplied by FIH Preferred Supplier:

*Polytan*

has been assessed and shown to satisfy the performance and construction requirements of a TOPS Category 2 system, as described in the FIH Hockey Turf and Field Standards: Part 5 Requirements for Temporary Overlay Pitches when laid above the following surface(s):

- natural grass rootzone
- long pile infilled (3G) synthetic turf

DR. NARINDER DHRUV BATRA  
PRESIDENT

A blue ink handwritten signature, appearing to be "N. Batra", written over a horizontal line.

An FIH Category 2 TOP is considered suitable for fields used at events that do not require teams to train and compete daily for more than three consecutive days.

Full details of the approved TOPS is available from the FIH Preferred Supplier. If any element of the TOPS changes from that tested, this certificate is no longer applicable.

To ensure satisfactory performance, this TOPS must also have an irrigation system capable of evenly applying the quantity of water required by the hockey-turf, in a maximum period of ten minutes.

If the manufacturing company ceases to be an FIH Preferred Supplier this certificate is no longer valid. An up-to-date list of FIH Preferred Suppliers can be found at [www.fih.ch/hockeyturf](http://www.fih.ch/hockeyturf).
